

Please join SEEDS for an informative luncheon seminar on:

Energy Efficient Lighting for Your Business

On Tuesday January 29th at The Cooperage at 11:00 am
in downtown Honesdale, PA

- **Reduce your operating costs!**
- **Learn how your business can save money by upgrading lighting!**
- **Learn about options to help you pay for energy efficient upgrade projects small and large!**

Wayne Businesses Conserve (WBC), a program of [SEEDS](#) (Sustainable Energy Education & Development Support), encourages businesses, nonprofits, schools and local governments in Wayne and Pike counties to reduce their energy and materials usage. SEEDS and the [Northeastern Pennsylvania Alliance](#) (NEPA), with the support of [PPL Electric Utilities](#) and [Schaedler Yesco](#), are offering a seminar to help organizations save on their energy bills. Speakers will emphasize how using rebate offers can help you see payback on your investment faster, and specifics on what programs are currently available. Incentives are available for lighting, refrigeration, HVAC and more. Attendees will have access to these professionals and assistance with any paperwork required for rebates.

Topics to be discussed include:

- Types of lighting and other energy efficient retrofits projects
- Lighting controls and sensor technologies and daylight harvesting
- Renewable energy options that may complement lighting projects
- Act 129 Rebates available through electric utilities
- Grants and incentives available for small businesses, local governments and nonprofits

Who Should Attend: Businesses, Schools, Government and Non Profit Institutions

Speakers:

- Jocelyn Cramer, Executive Director of SEEDS – *Introduction & Overview*
- John Polites, Schaedler Yesco – *Introduction to Types of Lighting & Levels of Efficiency*
- Andrew Bell, representing PPL's E-power program – *Energy Efficiency & Available Rebate/Incentives*
- Kurt Bauman, NEPA – *Case Studies & Success Stories*
