

Even if you can't put up your own wind turbine, you can still get your electricity from good clean wind power! These two companies purchase wind power to deliver to you via PPL ECU at no surcharge..

Come to the forum; we'll tell you all about it...

Get Renewable Energy Through the Grid

Tuesday, September 14 from 7:30 to 9 pm
at the Park Street Complex in Honesdale

Speakers will include representatives from Viridian and Clean Currents, both are companies that supply alternative energy options to local utilities. They'll discuss how to buy 20% to 100% of our electric energy from wind or solar with no surcharge. These companies have been in operation for several years and work closely with community groups like SEEDS to obtain customers.

Coffee, refreshments, free-will offering

The Park Street Complex is at
648 Park Street, (off Rt 6, formerly the Stourbridge School),
Honesdale, PA 18431.
