

presents a *FREE* forum:

High Performance, Passive and Zero Net-Energy Homes!

TUESDAY July 15th at 7:00 pm

This forum is for professional Builders, and home owners who plan to build in the future. It is also for home owners who want to bring their homes closer to Zero Net – Energy!

This is a *FREE* discussion about:

- What **Zero Net – Energy** means
- What Passive solar can do for your home
- Designing and constructing super-insulated and air tight walls
- Is it more costly to build for **Zero Net – Energy?**
- High performance windows and solar gains
- Efficient HVAC and hot water systems
- Appliances, lighting and other electric loads
- Including on-site energy generation and heat sources
- How to bring your home closer to **Zero Net- Energy**

Presenters include: Rob Lewis, of Bakker & Lewis Architects in Shavertown PA, and Jack Barnett, an engineer, SEEDS board member, and owner of a solar home near Hawley.

Come learn how to reach for ZERO!

This event is free and open to the general public. Coffee/Tea and baked goods will be served.

**At the Park Street Complex; 648 Park Street, Honesdale
near Wayne Memorial Hospital**

Registration is encouraged, but not required.
